

**The Easiest Way To EXIM**

**Import Export Management, Made Easy.**

TREZIX helps you manage complicated processes with complete transparency.

## About Us

Formed in 2020, Trezix is a unified SaaS platform for importers and exporters globally. It comprehensively manages documentation, approvals, license usage, shipment tracking, active notifications and much more. This helps our customers do business in a compliant and efficient manner. Our smart dashboard access provides real time information on critical business metrics required for effective decision making.

Trezix is recognised under Scheme for Assistance for Startups/Innovations, Gujarat Industrial Policy 2020, Gujarat Startup Cell, Industries Commissionerate, Government of Gujarat.

## Best In Class Partnerships

# Here's What Some Of Our Customers Have To Say...

## Sanjay Desai

Director - True Color

Trezix has given us single view of our crucial IMPEX documents. It has simplified our processes and its analytics capabilities has helped us with deeper visibility and timely actions.

## Alok Jariwala

Sumilon Industries

With TreZix today, we have achieved a single view of our crucial IMPEX process. It is helping us with deeper visibility into our process, simplification of our operations with SAP S4 Integration and predicting timely actions to scale our business.

## Kapil Arora

Director Finnix Rubbers

IMPEX crucial PaperWork Digitalisation with TreZix has helped us to shrink our process time, helped us with our compliances & given us peace of mind to focus on our business and scale it to the next level.

## Case Study: True Colors Impex

### Challenge

- ◀ No single repository of documents
- ◀ Inability to predict landing costs leading to lower margins
- ◀ Lack of real time notifications resulting in heavy penalties

### Solutions

- ◀ Single platform view of all critical documents
- ◀ Landed cost report module for proactive computation
- ◀ Time triggered payment notification to avoid remittance delays

### Benefits

- ◀ Ability to drill down to the last level of detail for each shipment
- ◀ Active prediction of landed costs to protect margin erosion
- ◀ Huge savings resulting from timely payment of remittance

### Results

- ◀ Approx. 30% saving in process management
- ◀ Pre-empted cost escalation in 100% shipments
- ◀ Achieved simultaneous consistency of data across all stakeholders
